Empower Your Business

Get Real Results

Smarter Fleet at Your Fingertips

The earlier you can catch a potential problem in your fleet, the sooner you can start finding a solution. Manage your fleet in a smarter way with Tracksolid by planning smarter routes, analysing fuel usage, monitoring driving habits.

Maximizing dispatching efficiency, and predicting vehicle maintenance requirements. Tracksolid gives you the flexibility to start small and expand your capabilities as your business grows. Manage your entire fleet from one screen and see what is happening remotely in the field.

Eyes on Your Assets

Monitor and track all your resources, from portable assets to parcels and containers to heavy machinery. With instant notifications, you can know where your valuable assets are, when they're expected to arrive, whether the container is opened or not, etc.

This real-time visibility helps you gain predictive analytics and minimize product loss. Having this real-time location information allows you to set optimal routes, thereby saving man-hours and ultimately reducing operating costs.

Personal & Workforce Safety

Monitoring the position and situation of your loved ones and staff can be life-saving.

With Tracksolid, monitoring the position and safety of your workers allows them to retain their independence while ensuring their security. Dispatch and protect your workers from your smartphone, tablet or PC.
